Posters, according to the type set, will average about 1 cent apiece.

Entered at the Postoffice at Ely, Nevada, as
second-class matter.
Communications are solicited, but the paper
will not be responsible for the opinions of its
correspondent.

LOCAL AND OTHER HAPPENINGS.

Dr. Hamilton, the dentist, is still
with us.

The open season for duck shooting
does not begin until Sept. 15th.

District Attorney Walker returned
last evening from an official visit to
Cherry Creek.

S. N. Holmes, who has been quite
ill for some time past, is very much
worse the past few days.

On account of the sickness of our
correspondent we received no Cherry
Creek items this week.

The residence of the late Jacob Weber
at Carson was sold at public auction
the other day for \$900.

Dr. M. J. Davis left Tuesday for an
extended visit in Southern California.
During his absence, Dr. Richardson
will occupy his office.

Word comes from San Francisco
that the condition of Jas. B. Orr is a
very critical one, and the doctors have
no hopes of his recovery.

Annie Campbell, after a three month
visit with his uncle and aunt at Ely
returned home on Tuesday's stage.
Pioche Record.

Mrs. Geo. F. Mezer, Jr., is dispo-
sing of her household effects, prepar-
atory to moving to St. George, Utah,
where she will shortly join her hus-
band.

Mrs. Clara Dunwoody, sister of Mrs.
Cleveland, came up from Pioche, Sat-
urday to console the latter in her great
bereavement.

A civil service examination will be
held in Reno on the 9th of October.
Stenographers and typewriters are
wanted, and the starting salaries are
listed to range from \$800 to \$1400 per
year.

Henry Robins, the gentleman who is
here buying horses has already pur-
chased a large number from our ranch-
ers, and is now engaged in making a
round-up of the horses in Steptoe val-
ley and on Duck Creek.

The Labor Day celebration here
next Monday promises to be a success-
ful undertaking, and the committee in
charge of the arrangements will cer-
tainly do all in their power to make
it so.

When tempering a heated drill it
should not be held at a state of rest in
the water, but moved up and down to
secure uniform temper on both the up-
per and lower sides of the drill.

The Sacramento of Holy Baptism was
administered by Rev. A. Miller last
Sunday morning to Mrs. A. D. Camp-
ton, Mrs. L. C. Doty, Mrs. John Web-
ber, John Weber, Jr., Florence Weber,
Catherine Doty and Bessie Campion.

Mr. Hans Olsen and wife came in
from Cherry Creek last Tuesday on a
visit to Mrs. Olsen's sister, Mrs. Jas.
A. Nesbitt. Hans has disposed of his
store and saloon in Cherry Creek and
will hunt new fields to locate in, says
the Pioche Record.

Domestic Curio and Miss Amanda
Sillyman, daughter of Thos. Sillyman
of this place, left here Thursday for
Salt Lake City, where they will be
united in matrimony. On their return
celebrations and a tin can reception
will be in order.

At the request of Bishop Leonard,
Rev. A. Miller, who has spent the past
24 months with us left Tuesday to take
charge of the Mission in Vernal, Utah,
temporarily, instead of returning to
his home in Colorado. Enroute Mr.
Miller will hold services at Cherry
Creek and in Clover valley.

Thos. Rosevear came over from his
ranch in Jake's valley, Thursday,
bringing with him a satchel contain-
ing some money and many valuable
diamonds, belonging to Mrs. A. C.
Cleveland, which was lost out of the

buggy in which Mrs. Cleveland was
being brought through from Eureka.

The date of the opening of the Ely
school has been postponed by the trust-
ees, until Monday, Sept. 21st, instead
of on the 14th as before stated. This
postponement of the opening day is
due to the fact that it will be impos-
sible for Principal Cartwright to complete
the present term of the Hamilton school
and reach here before the latter date.

It will be unnecessary for us to re-
late any of the automobile experience
we had last Sunday, as there are many
other people here who will voluntarily
furnish the inquisitive with a far more
interesting account than we could possi-
bly give. However, it is quite likely
some of them will inadvertently over-
look the trouble we had with a run-
away team out in the valley Monday.

Miss Ellen Hayes received a letter
yesterday from her brother, William,
from Southampton, England, in which
he stated that his general health had
been very much improved by the sea
voyage he had just made; and that he
would visit relatives in Paris and Ire-
land before again crossing the pond.
By this time he expects to have fully
recovered his health, which will be
good news to many of our people.

Governor Sparks has appointed the
following gentlemen from this County
as delegates to the National Irrigation
Congress to be held in Ogden, Utah,
on Sept. 15th to 18th: Joseph Judd
and P. C. Weber. He also appointed
Mr. Weber to represent this county at
the American Mining Congress to be
held in Deadwood, South Dakota, on
the 7th and 12th, inclusive.

The funeral of the late A. C. Cleve-
land last Thursday was the largest and
most pathetic ever seen in the town of
Ely, and perhaps in the county. Peo-
ple from all over the county had come
to pay a last farewell to the deceased.
Sixty-seven carriages, besides a large
number of people on foot, formed the
funeral procession, which when in line
was nearly one mile long. The corpse
and pall bearers had reached the grave
before all the cortege was well out of
town.

E. F. Freudenthal, Supt. of the Man-
hattan Mining Co., of Lincoln county,
accompanied by his wife and children,
and Mr. and Mrs. J. H. Peaslee and
daughter, came in from the south on
Sunday and have taken up a tempo-
rary residence in the Baker house on
High street. Mr. Peaslee's health is
in a very precarious condition and his
relatives are in the hopes of the change
of climate proving beneficial to him.
Mr. Freudenthal will combine busi-
ness with pleasure, and look over the
mining situation here, with which we
understand some of his company is in-
terested.

MINE SAMPLINGS.

The first payment of \$1,165 on the
purchase price of the Columbia and Last
Hope mines, was made Friday.

The operations of the New York &
Nevada Copper Company at Copper
Flat were considerably hampered by
the burning down of the hoist on the
No. 2 shaft. Pumping still continues
at the No. 1 shaft.

At the Saxton and Jupiter groups,
the McKinley Co. is making good pro-
gress with development work in both
places. Drifting on 200 and 300 levels
of the Saxton is progressing rapidly
and with a good showing.

The White Pine Copper Co. continue
the driving ahead of the drifts on the
300 and 500 foot levels of the Ruth
shaft, both of which still continue to
show no limit to the large copper ore
body. With the new blower now in
commission the work in drifts on the
300 level, which extended several hun-
dred from the shaft, will be greatly
facilitated. Extensive preparations
are also being made by the company
for the commencement of assessment
work upon the outside properties.

At Pilot Knob, the Giroux Consoli-
dated Company are pushing forward
development work on the various prop-
erties with most excellent showings in
the Morris shaft below the 200 level,
and in the new drift from the 450 level
of the Giroux shaft. In this drift this
week a very excessive flow of water
was encountered, which is one of the
best indications of the close proximity
of the main chalcocite ore exposed
on the level above. The new double
compartment shaft is also making good
headway.

Origin of "Watered Stock"

The expression "watered stock"
which describes so well the expansion
of the stock of a company beyond the
value of property originated, it is said,
with Daniel Drew, who was once the
wealthiest and unique manipulator in
Wall street. Drew had been a d. over
in his younger days, and it was said of
him that before selling his cattle in the
market he would first give them large
quantities of salt to make them thirsty
and then provide them with all the
water they could drink. In this way
their weight was greatly increased and
the pure user was buying "watered
stock."

CAROTHERS-GRAY NUPTIALS.

Miss Ida Ruth Carothers and
Edwin F. Gray United in
Matrimony.

The home of Mrs. C. Carothers was
the scene of a very pretty wedding at
4 P. M. yesterday afternoon, when her
youngest daughter, Miss Ida Ruth
Carothers was joined in the holy bonds
of matrimonial bliss to Edwin F. Gray,
Supt. of the White Pine Copper Co.;
Justice Weber performing the cere-
mony.

David P. Bartley acted as best man
and the bride's sister, Miss V. J. Car-
other, was the bridesmaid.
While there was quite a number of
invited guests present besides the im-
mediate relatives of the bride, still the
wedding was a very unostentatious one.
The bride was born and raised in
this country, and has many friends and
admirers of her accomplishments
amongst both sexes, all of whom con-
gratulate her most heartily on her ex-
cellent choice of a suitor.

The groom became pretty thorowly
acquainted with the people of the
county last fall, when canvassing the
county for the Assembly, and his un-
tiring efforts in the development of the
Ruth mine for the past two years, has
proven him to be a man of many sterling
qualities and one well worthy of
capture by any young lady. However
be that, can well be congratulated in
his choice of a life companion.

Mr. and Mrs. Gray left town last
evening for the Ruth mine, where the
latter has but recently fitted up a new
and commodious dwelling house, which
will be their future home, and where
we hope they will continue to reside
and lead a wedded life of love, hap-
piness and prosperity.

FIRE AT COPPER FLAT.

No. 2 Shaft House of New York
Nevada Copper Co. Totally
Destroyed.

The No. 2 shaft house of the New
York & Nevada Copper Company at
Copper Flat was totally destroyed by
fire last Saturday noon. The entire
building, galleys frame, several sets
of shaft timbers, a large quantity of lum-
ber and several cords of wood were all
consumed by the flame. Considerable
damage was also done the machinery.

The loss to the Company will be sev-
eral thousand dollars, besides the
trouble and expense they will be put
to in order to again resumed operations
at that point.

From what we are able to learn from
unauthentic sources, it appears that
the cause of the fire, while probably
avoidable, was nevertheless purely ac-
cidental. No one but the pump man
was working at the shaft. He had
fired up the boiler, and on discovering
the flames to be leaking, pulled the fire
from the boiler and went over the hill
to the No. 1 shaft for repairs with
which to fix the flues. During his ab-
sence some bark and other inflammable
matter lying near where he had dumped
the fire from the boiler, caught
ablaze, and before water could be got
from the No. 1 shaft, the whole
building was enveloped with flames.

Card of Thanks.

I desire to express my heartfelt grati-
tude to all those neighbors, friends
and acquaintances who so generously
assisted me in the performance of a
very great duty, and who, by their
kindly words and deeds enabled me
in the most trying hour of my present
sorrow to bear with more composure
and fortitude the death and burial of
my deceased husband.

MRS. A. C. CELELAND.

A. O. U. W. Troubles.

The graduated scale of assessments
passed down from the recent session of
the Supreme Lodge of Ancient Order
of United Workmen, has started an
agitation in the subordinate Lodges,
which threatens to be of serious con-
sequence to the Order.

Grand Master Workman Miller has
called a special session of the Nevada
Grand Lodge which met at Reno on
the 1st, for the purpose of ratifying or
rejecting the Supreme Lodge scale of
assessments.

In local lodge circles the audible mur-
murs portend radical action, so far
as possible.

Some of the older members are in
open revolt, and do not hesitate to
state that so far as they are concerned
the new state of affairs would make
"immediate death their only safe-
guard."

The San Francisco Journal of Com-
merce says that the trouble has arisen
from the fact that the original scale of
prices for insurance was too low, as a
member who belonged to the Order
and lived forty years after joining
would have paid in \$1200 and less, while
at his death his beneficiaries would
draw \$2,000—a manifest financial im-
possibility. It is also charged that the
managing department of the A. O. U.
W. has been carried on at an unjusti-
fiable expense. However this may be,
and whatever may be the true cause of
the present cloud, the Order in the
past has proven a boon to thousands

of widows and orphans all over the
land. It has done a noble work, and
it would indeed be little less than a
public calamity were its usefulness to
be impaired to the slightest extent at
this late date. What action the Neva-
da grand jurisdiction may take remains
to be seen, but every one will hope that
after all, things are not as bad as some
of the older members seem to fear.

Sir Thos. Gives Up.

Sir Thomas Lipton, after the last
yacht race, declared that he would not
challenge again for America's cup un-
til a man had been found in England
who equaled Nat Herreshoff in yacht
building. He admitted his disappoint-
ment at his failure and frankly said
that after the first he had no hope of
winning even a single race.

Los Vegas Will not be Terminus.

Owing to the lack of water, Los Ve-
gas has been given up as the end of a
division of the San Pedro road. The
officers of the company will make a di-
vision terminus in the vicinity of Mo-
apa, where there is an abundance of
water for all necessary purposes. It will
be the railroad town. This change will
benefit the whole of Muddy valley as it
will furnish a market for their produce
near at hand.

Need Two Thousand Men.

The Utah Construction Company,
which has the contract for grading the
first eighty-five miles of the Clark road
out of Calientes, has already establish-
ed one camp at Calientes, and from
now it will begin rushing in men and
materials as fast as it can. Already
men are being sought to work as la-
borers on the grade. It is expected
that 2,000 men will be used on the work
in a short time.

A feature of the Nevada exhibit at
St. Louis will be a column showing the
exact amount of gold and silver pro-
duced by the State during the last half
century. Nevada produced during the
period named \$1,200,000,000 in gold and
silver, of which amount the Comstock
lode yielded \$680,000,000.

It is not the assay or the strike which
brings the revenue to a mining com-
pany, enabling it, in turn, to pay di-
vidends. News of a rich strike creates
interest, for the time being only. The
more conservative investor—the man
who actually furnishes the needed cap-
ital for development—waits for more
substantial evidence of a district's val-
ue. It is difficult and often useless to
tell of obstacles to production after the
strike news has once been circulated—
doubtful hard to what it would have
been had less glowing and more con-
servative reports been made.

WILL MANUFACTURE GOLD FROM SILVER.

Rudolph M. Hunter, the widely
known scientist and inventor, who re-
cently startled the country by the
announcement that he had discover-
ed a method of manufacturing gold,
supplements his announcement to-day
by the statement that he has secured
the backing of prominent business men
in Philadelphia and New York City,
and will shortly begin the erection of a
large plant, where the business of con-
verting silver into the precious yellow
metal will be extensively carried on.
Mr. Hunter says that his method will
not be patented, but will remain a se-
cret of the corporation which is to be
formed. If patented, he declares,
wealthy men could go to any country
where patent laws count but little, and
there operate rival plants.

"When this plant gets in working
order," said Mr. Hunter, "thousands
of pounds of dollars' worth of gold
can be turned out daily. Associated
with me in this enterprise are
about two dozen of the most prominent
and most conservative business men. I
am not at liberty to give you their
names but they are all well known."

"I consider that it would be a crime
to make all the facts of my discovery
public, although in the interest of sci-
ence I will tell everything on the chemi-
cal process. Text-books on chemis-
try will need revision, for I have dem-
onstrated beyond a shadow of a doubt
that metals are not elementary."
"It can readily be seen what a cal-
amity it would be for the secret to be-
come public property. One dollar's
worth of silver becomes \$40 worth of
gold. The dumping of an enormous
output of gold upon the world might
mean a derangement of the entire eco-
nomic fabric. We will try to prevent
this by manufacturing the metals our-
selves and protecting our secrets."
"If you were to give me a silver dol-
lar I could convert it into gold in ten
minutes—not all, of course; that would
take a little longer, but I could give
you gold that would stand every test
known to man and be accepted by the
government assaying office. Of course,
I expect my assertions in respect to
my discovery to arouse skepticism, but
wait; the time will come, and soon,
when I will laugh at those who now
ridicule me."

LIST OF LETTERS.

Remain in the Post office at Ely,
Nevada, for the month ending August
31, 1903. Persons calling for these
letters will please say "Advertised."
J. T. Johnson, Geo. A. Hollinger,
Wm. Brown, C. H. Lud,
John P. Martin, Jack McKenzie,
A. J. McLennan, Henry W. Bancour,
G. W. Oils, J. J. O'Brien,
J. S. Sanders, John Wilson,
W. B. GRAHAM, P. M.

Strayed Horse.

One dapple grey, saddle and work
horse, branded LL on left thigh. Ow-
ner can have same by applying to E.
A. Cripps, Lund, Nevada, and paying
the pasture bill and other costs.

NEW SHORT ORDER HOUSE.

M. Fornia has just refitted up the
chophouse in the rear of Bassett's sa-
loon, and is now ready to feed the
hungry at all hours, with everything
the market affords at prices to suit the
times.

Dissolution of Partnership.

We, the undersigned, have this day
mutually agreed to dissolve part-
nership in the business of General Mer-
chandise carried on by us under the
name of Olson Bros. Hans Olson re-
siring from said business. In the fu-
ture the business will be conducted by
Andrew Olson who will collect all bills
or accounts due the firm and pay all
the indebtedness of the said firm.
ANDREW OLSON.
HANS OLSON.
WITNESS, John Wearne
Cherry Creek, Nev., Aug. 15, 1903.

NOTICE OF TIME APPOINTED FOR HEARING PETITION.

In the District Court of the Four-
th Judicial District of the
State of Nevada, in and for
the County of White Pine.

IN THE MATTER OF THE ESTATE OF
HENRY P. MOLLESON, Deceased.

NOTICE is hereby given that Chas.
A. Walker has filed a petition with the
Clerk of said Court for the probate of
the Will of said Henry P. Molleson, de-
ceased, and for the issuance to him, the
said Chas. A. Walker, of Letters of
Administration with Will annexed in
said Estate, and that Friday the 18th
day of September, 1903, at 10 o'clock
A. M. of that day, at the Court Room
of said Court, in the town of Ely in
said County and State, has been ap-
pointed as the time and place for hear-
ing said petition for the probate of said
Will and for the issuance of said Let-
ters of Administration with Will an-
nexed in said Estate, when and where
any person interested may appear and
contest the same.
WITNESS my hand this 31st day
of August, 1903.
D. S. DICKERSON,
Clerk of said District Court.
First publication, Sept. 3rd, 1903.

NEVADA CHOP HOUSE, ELY, NEVADA.
